Auger Torque VM1000

£POA

The Auger torque VM1000 is suitable for excavators and skid steer loaders, these mulchers are capable of handling some of the toughest clearance applications as well as more precise hedge trimming, and a working width of up to 1m. Making this mulcher unique is the option of different drums and the variety of easy to fix teeth. The fixed tungsten teeth drum gives a robust blunt cutting edge for thick timber, hedges and branches, the swinging hammer teeth gives a cleaner and more precise cut and level surface for hedges. So, whatever the job at hand you can easily switch between the options, providing the ultimate solution for all your land
